

NATTIE'S GLUTEN STATEMENT

The FDA defines the claim "gluten-free" to mean that food bearing the claim in its labeling does not contain any of the following:

- (1) An ingredient that is a prohibited grain.
- (2) An ingredient that is derived from a prohibited grain and has not been processed to remove gluten.
- (3) An ingredient that is derived from a prohibited grain and that has been processed to remove gluten, if the use of that ingredient results in the presence of 20 ppm or more gluten in the food.

The FDA defines "gluten" as the proteins that naturally occur in a prohibited grain and that may cause adverse health effects in persons with celiac disease.

The definition also defines the term "prohibited grain" as any one of the grains, wheat, rye, or barley, or their cross-bred hybrids.

Based on this information, we affirm that the below products do not contain gluten (wheat, barley or rye). *
